Central Bank of the Solomon Islands

Directors' report

The Directors present their report together with the financial statements of the Central Bank of the Solomon Islands ("the Bank") for the year ended 31 December 2017 and the auditors' report thereon.

Directors

The Directors in office during the financial year and at the date of this report were:

Denton Rarawa (Chairman and Governor)
Gane Simbe (Deputy Governor)
Harry Kuma
Thomas Ko Chan
John Usuramo
David Quan
Leslie Teama (Resigned on 21/08/2017)
Rodney Rutepitu (Appointed on 20/02/2018)
Christina Lasaqa (Appointed on 20/02/2018)
Dennis Meone (Appointed on 20/02/2018)

State of affairs

In the opinion of the Directors:

- there were no significant changes in the state of affairs of the Bank during the financial year under review not otherwise disclosed in this report or in the financial statements;
- the accompanying statement of financial position gives a true and fair view of the state of affairs of the Bank as at 31 December 2017 and the accompanying statement of profit and loss and other comprehensive income, statement of changes in equity and statement of cash flows give a true and fair view of the results, the changes in equity and cash flows of the Bank for the year then ended.

Principal activities

The Bank's role as a central bank, as defined in the Central Bank of Solomon Islands Act., 2012 is:

- (a) to achieve and to maintain domestic price stability;
- (b) to foster and to maintain a stable financial system; and
- (c) to support the general economic policies of the government.

Results

The net profit of the Bank for the year ended 31 December 2017 was \$30.57m (2016: \$42.5m loss).

Reserves

The Board approved the following transfer of reserves from the net profit for the year:

- \$15.5m (2016: \$66.35m loss) to the foreign exchange revaluation reserve; and
- \$15.07m (2016: \$23.84m) to the general reserve.

Provisions

There were no material movements in provisions during the year apart from the normal amounts set aside for such items as depreciation and employee entitlements.

Going Concern

The Board believe that the Bank will be able to continue to operate for at least 12 months from the date of this report.

Central Bank of the Solomon Islands

Directors' report (continued)

Assets

The Directors took reasonable steps before the Bank's financial statements were made out to ascertain that the assets of the Bank were shown in the accounting records at a value equal to or below the value that would be expected to be realised in the ordinary course of business.

At the date of this report, the Directors were not aware of any circumstances which would render the values attributable to the assets in the financial statements misleading.

Directors' benefit

No director of the Bank has, since the last financial year, received or become entitled to receive a benefit (other than a benefit included in the total amount of emoluments received or due and receivable by directors shown in the Bank's financial statements) by reason of a contract made with the Bank or a related corporation with the director or with a firm of which he is a member, or in a Bank in which he has a substantial financial interest.

Unusual transactions

Apart from these matters and other matters specifically referred to in the financial statements, in the opinion of the Directors the results of the operations of the Bank during the financial year were not substantially affected by any item, transaction or event of a material unusual nature, nor has there arisen between the end of the financial year and the date of this report any item, transaction or event of a material unusual nature likely, in the opinion of the Directors, to affect substantially the results of the operations of the Bank in the current financial year.

Events subsequent to balance date

Since the end of the financial year the directors are not aware of any matter or circumstances not otherwise dealt with in this report that has significantly affected the operations of the Bank, the results of those operations or the state of affairs of the Bank.

Other circumstances

At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or financial statements which render amounts stated in the financial statements misleading.

Signed in accordance with a resolution of the Board of Directors:

Gane Simble

Chairman of the Board and Deputy Governor

David K. C. Quan

Director

Central Bank of Solomon Islands

Statement by Directors

In the opinion of the Directors:

- (a) the accompanying statement of profit and loss and other comprehensive income is drawn up so as to give a true and fair view of the results of the Bank for the year ended 31 December 2017;
- (b) the accompanying statement of financial position is drawn up so as to give a true and fair view of the state of affairs of the Bank as at 31 December 2017;
- (c) the accompanying statement of changes in equity is drawn up so as to give a true and fair view of the changes in equity of the Bank for the year ended 31 December 2017;
- (d) the accompanying statement of cash flows is drawn up so as to give a true and fair view of the cash flows of the Bank for the year ended 31 December 2017;
- (e) at the date of this statement there are reasonable grounds to believe the Bank will be able to pay its debts as and when they fall due;
- (f) all related party transactions have been adequately recorded in the books of the Bank, and
- (g) the financial statements have been properly prepared in accordance with International Financial Reporting Standards ("IFRS") and Central Bank of Solomon Islands Act 2012 ("Act 2012").

For and on behalf of the Board of Directors by authority of a resolution of the Directors this of April 2018.

Gane Simbe

Chairman of the Board and Deputy Governor

David K. C. Quan

Director

INDEPENDENT AUDITOR'S REPORT TO THE BOARD OF DIRECTORS OF CENTRAL BANK OF SOLOMON ISLANDS

Report on the Audit of the Financial Statements

Opinion

I have in joint consultation with the Board of Directors ("the Board) of the Central Bank of Solomon Islands ("the Bank") pursuant to Section 60(1) of the Central Bank of Solomon Islands Act 2012 contracted KPMG Fiji which is part of the KPMG International network to assist me to audit the accompanying financial statements of Central Bank of Solomon Islands ("the Bank"), which comprise the statements of financial position as at 31 December 2017, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information as set out in notes 1 to 27.

In my opinion, the accompanying financial statements give a true and fair view of the financial position of the Bank as at 31 December 2017 and of its financial performance, its changes in equity and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Emphasis of matter

As at 31 December 2017, the Bank's total assets amounted to \$5 billion. This was less than the sum of the Bank's total monetary liabilities and its unimpaired capital which total \$5.004 billion. These conditions have arisen from the Bank's large open position in foreign currency which is subject to foreign exchange rate movements.

Under section 56 of the Central Bank of Solomon Islands Act 2012, the Bank will be required to inform the Minister for Finance within 30 days of this report of the reasons for this shortfall and request a capital contribution to remedy the shortfall.

Basis for Opinion

I conducted the audit in accordance with International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Bank in accordance to the ethical requirements that are relevant to my audit of the financial statements and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management are responsible for the preparation and fair presentation of the financial statements in accordance with IFRS and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management are responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes my opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing (ISAs) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
 error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is
 sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material
 misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion,
 forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
 the Banks's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based
 on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that
 may cast significant doubt on the Bank's ability to continue as a going concern. If I conclude that a material
 uncertainty exists, I am required to draw attention in my auditors' report to the related disclosures in the
 financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusion is based
 on the audit evidence obtained up to the date of my auditor's report.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identified during my audit.

Report on Other Legal and Regulatory Requirements

I have obtained all the information and explanations which, to the best of my knowledge and belief, were necessary for the purposes of my audit.

In my opinion:

i) proper books of account have been kept by the Bank, sufficient to enable financial statements to be prepared, so far as it appears from my examination of those books; and

ii) to the best of my knowledge and according to the information and explanations given to me the financial statements give the information required by the Central Bank of Solomon Islands Act 2012, in the manner so required.

/3-

1. Principal activities and principal place of operations

The Central Bank of Solomon Islands ("the Bank") operates under the Central Bank of Solomon Islands Act., 2012. The Bank is an independent legal entity wholly owned by, and reporting to, the Government of the Solomon Islands. The Bank's primary objective as defined in the Central Bank of Solomon Islands Act., 2012, Section 8 is:

- (a) to achieve and to maintain domestic price stability;
- (b) to foster and to maintain a stable financial system; and
- (c) to support the general economic policies of the government.

The Bank's principal place of operations is located at Mud Alley Street, Honiara, Solomon Islands.

The financial statements were authorised for issue by the Board of Directors on April 2018.

2. Basis of preparation

(a) Statement of compliance

The financial statements of the Bank have been prepared in accordance with International Financial Reporting Standards ('IFRS') and the Central Bank of Solomon Islands Act., 2012.

The Bank has not complied with the requirements of the Central Bank of Solomon Islands Act (Section 56) which requires that in the event that the value of its assets falls below the sum of its monetary liabilities and its unimpaired authorised capital, then –

- (a) The Board, with the advice of the external audit of the Bank, shall assess the situation and prepare a report on the causes and extent of the shortfall and assess the situation within a period of no more than 30 calendar days;
- (b) If the Board approves the report under paragraph (a), the Bank shall request the Minister of Finance for a capital contribution to be made by the Government to remedy the deficit; and
- (c) Upon receipt of this request the Government shall, within a period of no more than 30 calendar days, transfer to the Bank the necessary amount in currency or in negotiable debt instruments with a specified maturity issued at market-related interest rates prevailing in Solomon Islands.

As at 3! December 2017, the Bank's total assets amounted to \$5 billion. This was less than the sum of the Bank's total monetary liabilities and its unimpaired capital which totalled \$5.04 billion. The Bank had requested the Ministry of Finance for a capital contribution during the year to remedy the prior year deficit but the request had been repudiated. An emphasis of matter has been included in the audit report relating to this matter.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis and do not take into account changes in money values except for the following material items in the statement of financial position.

- Available-for-sale financial assets are measured at fair value.
- Held to maturity financial assets are measured at amortised cost.
- Land and buildings classified as property, plant and equipment are measured at fair value.
- Investment properties are measured at fair value.

2. Basis of preparation (continued)

(c) Functional and presentation currency

The financial statements are presented in Solomon Islands dollars, which is the Bank's functional currency. All financial information presented in Solomon Islands dollars has been rounded to the nearest thousand except when otherwise indicated.

(d) Use of estimates and judgement

The preparation of the financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The estimates and assumptions that have a significant risk of causing material adjustment to the carrying amount of assets and liabilities within the next financial year are discussed in the following paragraphs.

Impairment of financial assets

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Bank on terms that the Bank would not consider otherwise, indications that a debtor or issuer will enter into bankruptcy, adverse changes in the payment status of borrowers or issuers in the Bank, economic conditions that correlate with defaults or the disappearance of an active market for a security.

3. Statement of significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in the financial statements.

(a) Foreign currency

Transactions in foreign currencies are translated into the functional currency of the Bank at the exchange rates prevailing at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate prevailing at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate prevailing at the reporting date.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated into the functional currency at the exchange rate prevailing at the date the fair value was determined.

Non-monetary items that are measured based on historical cost in a foreign currency are translated using the exchange rate prevailing at the date of transaction.

Foreign currency differences arising on retranslation are recognised in profit or loss.

3. Statement of significant accounting policies (continued)

(b) Interest income and expense recognition

Interest income and expense are recognised in profit or loss using the effective interest method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability. When calculating the effective interest rate, the Bank estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses.

The calculation of the effective interest rate includes all transaction costs and fees paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or liability.

Interest income and expense presented in the statement of profit and loss and other comprehensive income include:

- Interest on financial assets and financial liabilities measured at amortised cost calculated on an
 effective interest basis; and
- Interest on available-for-sale investments securities calculated on effective interest basis.

(c) Fees and commission

Fees and commission income and expense relate to transaction and service fees, which are recognised as revenue when services are rendered or expensed as the services are received.

Fees and commission income and expense that are intregal to the effective interest rate of a financial asset or financial liability is recognised using the effective interest method as interest income or interest expense respectively.

(d) Other income

Other income are comprise of sale of numismatic notes and coins which is measured at fair value of the consideration received or receivable.

(c) Tax expense

The Bank is exempted from income tax under the Income Tax (Central Bank of Solomon Islands) (Exemption) Order of 21st June 1976 as provided for under Section 16 (2) of the Income Tax Act (CAP 123).

(f) Financial assets and financial liabilities

i. Recognition

The Bank initially recognises loans and advances, deposits and debt securities on the date that they are originated. All other financial assets and liabilities are recognised initially on the trade date, which is the date that the Bank becomes a party to the contractual provisions of the instrument,

A financial asset or financial liability is measured initially at fair value plus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issue.

3. Statement of significant accounting policies (continued)

(f) Financial assets and financial liabilities (continued)

ii. Classification

Financial assets

The Bank classifies its financial assets in one of the following categories:

- · loans and receivables;
- held to maturity; and
- available-for-sale.

Financial liabilities

The Bank classifies its financial liabilities as measured at amortised cost.

ili. Derecognition

Financial assets

The Bank derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Bank neither transfers nor retains substantially all the risks and rewards of ownership and it does not retain control of the financial asset. Any interest in such transferred financial assets that qualify for derecognition that is created or retained by the Bank is recognised as a separate asset or liability. On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset transferred), and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in other comprehensive income is recognised in profit or loss.

Financial liabilities

The Bank derecognises a financial liability when its contractual obligations are discharged, cancelled or expired.

iv. Amortised cost measurement

The amortised cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between the initial amount recognised and the maturity amount, minus any reduction for impairment.

v. Fair value measurement

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction on the measurement date.

The Bank measures the fair value of an instrument using quoted prices in an active market for that instrument. A market is regarded as active if quoted prices are readily and regularly available and present actual and regularly occurring market transactions on an arm's length basis.

Assets are measured at a bid price, while liabilities are measured at an asking price. Fair values reflect the credit risk of the instrument and include adjustments to take account of credit risk of the Bank.

3. Statement of significant accounting policies (continued)

(g) Cash and cash equivalents

Cash and cash equivalents include notes and coins held by the Bank, teller's cash, current accounts with a maturity of three months or less from the acquisition date and other short term highly liquid term deposits.

Cash and cash equivalents are carried at amortised cost in the statement of financial position.

(h) Held-to-maturity

Held-to-maturity investments are non-derivative assets with fixed or determinable payment and fixed maturity that the Bank has the positive intent and ability to hold to maturity. Held-to-maturity investments comprise of fixed term deposits, short term commercial papers and bonds.

Held-to-maturity investments are carried at amortised cost using the effective interest method less any impairment losses. A sale or reclassification of more than an insignificant amount of held-to-maturity investments prior to maturity would result in the reclassification of all held-to-maturity investments as available for sale, and would prevent the Bank from classifying investment securities as held to maturity for the current and the following two financial years.

(i) Available-for-sale

Available-for-sale investments are non-derivative investments that are designated as available-for-sale or are not classified as another category of financial assets. Available-for-sale investments comprise of gold holdings and are carried at fair value.

Fair value changes other than impairment losses are recognised in other comprehensive income and presented in the gold revaluation reserve in equity. When the investment is sold, the gain or loss accumulated in equity is reclassified to profit or loss. Impairment losses are recognised in profit or loss.

(j) Loans and recievables

Loans and advances are non-derivative financial assets or financial liabilities with fixed or determinable payments that are not quoted in an active market and that the Bank does not intend to sell immediately or in the near term. Loans and advances comprise of loans and advances to the Solomon Islands Government, staff loans and bokolo bills issued to the public.

Loans and advances are initially measured at fair value plus incremental direct transaction costs, and subsequently measured at their amortised cost using the effective interest method.

(k) Currency inventory

Currency inventory is measured at the lower of cost and net realisable value. The cost of inventory is based on the first in first out principle.

Currency inventory relates to notes and coins purchased for circulation. The amount expensed in profit or loss is based on the cost of notes and coins that are issued into circulation.

(l) Currency in circulation

Currency issued by the Bank represents a claim on the Bank in favour of the holder. Currency in circulation comprises notes and coins issued by the Bank and the liability for currency in circulation is recorded at face value in the statement of financial position.

3. Statement of significant accounting policies (continued)

(m) Property, plant and equipment

Recognition and measurement

Property, plant and equipment are initially measured at cost less accumulated depreciation and any accumulated impairment losses. Land and buildings are initially recognised at cost less accumulated depreciation and subsequently revalued to fair value.

Costs includes expenditure that is directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

Any gain or loss on disposal of property, plant and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the asset at the time of disposal) is recognised within other income in profit or loss.

Subsequent costs

Subsequent expenditure is capitalised only when it is probable that the future economic benefits of the expenditure will flow to the Bank. Ongoing repairs and maintenance are expensed as incurred.

Depreciation

Items of property, plant and equipment are depreciated from the date they are available for use. Depreciation is charged on a straight line basis over the estimated useful lives of the assets. The rates of depreciation used are based on the following estimated useful lives:

Buildings

30 - 50 years

Computers

3 years

Furniture, plant and equipment

3 - 5 years

Motor vehicles

4 years

Periodic revaluation

With Board approval, a three year periodical revaluation of its land and buildings was first done in 2012 and recently done in 2015. This included a review of the asset classes, estimated useful lives and depreciation rates, and current market values where deemed appropriate. The basis of this valuation is the open market value, that is, the highest and best value the property would expect to be realised for, if put for sale on private treaty. The Board proposes to have such asset revaluations done every three years. The next revaluation will be done in 2018.

(n) Investment property

Investment property, is property held either to earn rentals or for capital appreciation or for both. Investment property is initially measured at cost and subsequently at fair value with any change therein recognised in profit or loss. Costs include expenditure that is directly attributable to the acquisition of the investment property.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss. When an investment property that was previously classified as property, plant and equipment is soid, any related amount included in the revaluation reserve is transferred to general reserve.

3. Statement of significant accounting policies (continued)

(n) Investment property (continued)

When the use of the property changes such that it is reclassified as property, plant and equipment, its fair value at the date of the reclassification becomes its cost for subsequent accounting.

(o) Demand deposits

Demand deposits represent funds placed with the Bank by financial institutions and other organisations. Demand deposits are initially measured at fair value minus incremental direct transaction costs, and subsequently measured at their amortised cost using the effective interest method. These deposits are at call.

(p) Employee entitlements

Short-term employee benefits

Short-term employee benefits comprising of accrued wages and salaries, annual leave and entitlement to Solomon Islands National Provident Fund are measured on an undiscounted basis and are expensed as the related service is provided.

Liabilities recognised in respect of short-term employee benefits expected to be settled within 12 months, are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

Long-term employee benefits

Long-term employee benefits comprises of long service leave and early retirement benefit.

Liabilities recognised in respect of long-term employee benefits which are not expected to be settled within 12 months are measured at the present value of the estimated future cash outflows to be made resulting from employee's service provided to balance date, based on staff turnover history and is discounted using the rates attaching to the external bonds portfolio.

(q) Impairment

The carrying amounts of the Bank's assets are reviewed at balance date to determine whether there is any indication of impairment. If any such indication exists, the assets recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. Impairment losses are recognised in profit or loss.

(r) Comparative figures

Where necessary, comparative figures have been changed to conform to changes in presentation in the current year.

3. Statement of significant accounting policies (continued)

(s) New standards and interpretations not yet adopted

There was no significant impact to the current year financial statement of changes in standards, amendments and interpretations to existing standards. Of these yet to be adopted standards, amendments and interpretations, the following standards have been published which are relevant to the Bank and are mandatory to accounting periods beginning on or after 1 January 2018, but the Bank does not plan to early adopt them. The impact of these standards and interpretations on the financial statements of the Bank has not been fully determined.

IFRS 9 'Financial instruments', published in July 2014, replaces the existing guidance in IAS 39 'Financial Instruments: Recognition and Measurement'. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. The standard is effective for annual reporting periods beginning on or after 1 January 2018, with early adoption permitted.

IFRS 16 'Leases', removes the classification of leases as either operating leases or finance leases – for the lessee – effectively treating all leases as finance leases. Short-term leases (less than 12 months) and leases of low-value assets (such as personal computers) are exempt from the lease accounting requirements. There are also changes in accounting over the life of the lease. In particular, companies will now recognise a front-loaded pattern of expense for most leases, even when they pay constant annual rentals. Lessor accounting remains similar to current practice – i.e. lessors continue to classify leases as finance and operating leases. The standard is effective for annual reporting periods beginning on or after 1 January 2019, with early adoption permitted.

IFRS 15 Revenue from Contracts with Customers was issued in 2014 by IASB. The standard is not mandatorily effective for the Bank until 1 January 2018. IFRS 15 contains new requirements for the recognition of revenue and additional disclosures about revenue. It is expected that a significant proportion of the Bank's revenue will be outside the scope of IFRS 15.

7. International Monetary Fund

The Solomon Islands is a member of the International Monetary Fund (IMF) and the Central Bank of Solomon Islands has been designated as the Government of Solomon Island's fiscal agency (through which the Government deals with the IMF) and as the depository for the IMF's holding in Solomon Islands dollars.

The Solomon Islands subscription to the IMF has been met by:

- (i) payment to the IMF out of the Central Bank's external assets which have been reimbursed by the Government of Solomon Islands by issue of non-interest bearing securities;
- (ii) the funding of accounts in favor of the IMF in the books of the Central Bank by the Government of Solomon Islands.
- (iii) The liabilities to the IMF include subscriptions which are maintained in the IMF No.1 and IMF No. 2 accounts, are disclosed together as capital subscription. The IMF maintains such balances in their accounts in both Special Drawing Rights (SDR) and Solomon Islands dollar equivalents; the Bank balances are maintained only in Solomon Islands dollars.

The standby credit facility with IMF commenced in 2010 with first disbursement received 23rd June 2010. The final disbursement was transacted on the 1st of December 2011. Financing under this facility carried zero interest rate till June 2014 thereafter 0.25% interest rate applicable through 2019. It has a grace period of 4 years and a final maturity of 9.5 years. The first repayment under this facility commenced in June 2014 until its maturity in December 2019.

The extended credit facility with IMF was approved and drawn down on 11 December 2012.

Investment property comprises of a commercial and a residential property that are leased to third parties. Each lease contains a lease period of 3 and 2 years respectively with annual rental subject to increase upon renewal indexed to the Honiara retail price index. Subsequent renewals are negotiated with the lessee.

10. Investment properties (continued)

Rental income from investment properties of \$1,000,183 (2016: \$881,845) has been recognised in other income.

Fair value hierarchy

The fair value of investment property and land and building (refer to note 12) was determined by an external, independent property valuer, having appropriate recognised professional qualifications and recent experience in the location and category of the property being valued. The independent valuer provides the fair value of the Bank's investment property portfolio on a regular basis.

The fair value of the Bank's investment property are categorised into Level 3 of the fair value hierarchy.

Valuation techniques and significant unobservable inputs

The following table shows the valuation technique used in measuring the fair value of investment properties, as well as significant unobservables inputs used.

Valuation technique	Significant unobservable inputs	Inter-relationship between key unobservable inputs and fair value measurement
Replacement cost method: where the improvements are valued using current replacement cost and an allowance for depreciation and obsolescence plus the freehold value of the land (notable sales of comparable vacant sites within Honiara are noted).	 Depreciation rate applied. Locality of the property Proximity to civic amenities Tonography/geographical feature of the land Demand for the land 	The estimated fair value would increase (decrease) if: • depreciation rate were lower (higher); • the property located in urban locality; • closer to civic amenities; • the higher the demand for the land.

19. Determination of distributable profit

Profits of the Bank are determined and dealt with in accordance with Section 54 and 55 of the Central Bank of Solomon Islands Act., 2012 as follows:

- Section 54(2)(a) states that unrealised revaluation gains shall be deducted from the net profits and shall not be available to be distributed but allocated to the respective unrealised revaluation reserve account;
- b) The realised gains from previous years shall be deducted from the appropriate revaluation reserve account and added to the distributable earnings as determined in section 54(2)(a).

Net profit distribution according to CBSI Act 2012	2017 \$'000	2016 \$'000

Balance at the end of the year	50,000	50,000

22. Reserves

Under Section 53(2) of the CBSI Act., 2012, the Bank shall maintain the following reserves. Their purpose and method of operation are to be as follows:

a) General reserve

The general reserve was established under Section 53(1) as a reserve for the purposes of covering losses sustained by the Bank.

b) Foreign exchange revaluation reserve

Unrealised gains and losses on revaluation of foreign exchange balances are recognised in the profit and loss under other comprehensive income and are transferred to the foreign exchange asset revaluation reserve at the end of the accounting period.

c) Asset revaluation reserve

The asset revaluation reserve reflects the impact of changes in the market value of property.

d) Gold revaluation reserve

The unallocated and allocated gold is valued at current quoted market prices. Gold is accounted for as an available for sale financial asset. Unrealised gains and losses arising from revaluation are recognised in the gold revaluation reserve at end of the accounting period.

e) Capital asset reserve

The capital asset reserve is used to strengthen the Bank's equity position in relation to future major capital investment in buildings and equipment.

23. Financial risk and management policies

(a) Introduction and overview

The structure of the Bank's statement of financial position is primarily determined by the nature of its statutory functions. International Financial Reporting Standards (IFRS) 7 – (Financial Instrument Disclosures) requires disclosure of information relating to financial instruments, their significance, performance, accounting policy, terms and conditions, fair values and the Bank's policies for controlling risks and exposures relating to the financial instruments.

The Bank's risk management framework differs from the risk management framework for most other financial institutions. The main financial risks that the Bank faces include;

- Liquidity risk
- Credit risk
- Market risk
- Operational risk

This note presents information about the Bank's exposure to each of the above risks, the Bank's objectives, policies and procedures for measuring and managing risk.

Risk management framework

Like most central banks, the nature of the Bank's operations creates exposures to a range of operational and reputational risks. The Board of Directors has overall responsibility for the establishment and oversight of the Bank's risk management framework.

The Bank's management seeks to ensure that strong and effective risk management and control systems are in place for assessing, monitoring and managing risk exposure. The Board of Directors and management are responsible for managing and monitoring the business strategy, risks and performance of the Bank.

Internal Audit forms part of the Bank's risk management framework. This function reports to the Governor and the Board Audit Committee on internal audit and related issues. All significant areas in the Bank are subject to periodic internal audit review.

The Bank is subject to an annual audit by an external auditor. Auditing arrangements are overseen by an Audit Committee of the Board to monitor the financial reporting and audit functions within the Bank and the committee reviews the internal audit functions as well. The committee reports to the Board of Directors on its activities.

The overall risk management framework is designed to strongly encourage the sound and prudent management of the Bank's risk. The Bank seeks to ensure the risk management framework is consistent with financial market best practice.

The risk tables in this note are based on the Bank portfolio as reported in its statement of financial position.

(b) Liquidity risk

Liquidity risk is the risk that the Bank will encounter difficulty in meeting obligations associated with its financial liabilities that are settled by delivering cash or another financial asset.

Management of liquidity risk

To limit the liquidity risk, the Bank maintains an adequate level of reserves and taking into consideration the transaction demand on foreign exchange, ensures that an acceptable amount of \$150 million is maintained in current accounts at all times. The Bank invests in high quality instruments, including commercial paper and debt issued by Governments and Superannuation funds, all of which are easily converted to cash (refer to maturity analysis on liquidity).

23. Financial risk and management policies (continued)

(b) Liquidity risk (continued)

The Central Bank of Solomon Islands Act (Section 56) requires that in the event that the value of its assets falls below the sum of its monetary liabilities and its unimpaired authorised capital, then –

- (a) The Board, with the advice of the external audit of the Bank, shall assess the situation and prepare a report on the causes and extent of the shortfall and assess the situation within a period of no more than 30 calendar days;
- (b) If the Board approves the report under paragraph (a), the Bank shall request the Minister of Finance for a capital contribution to be made by the Government to remedy the deficit; and
- (c) Upon receipt of this request the Government shall, within a period of no more than 30 calendar days, transfer to the Bank the necessary amount in currency or in negotiable debt instruments with a specified maturity issued at market-related interest rates prevailing in Solomon Islands.

As at 31 December 2017, the Bank's total assets amounted to \$5 billion. This was less than the sum of the Bank's total monetary liabilities and its unimpaired capital which totalled \$5.04 billion.

23. Financial risk and management policies (continued)

(b) Liquidity risk (continued)

23. Financial risk and management policies (continued)

(c) Credit risk

Credit risk is the risk of loss arising from a counterparty to a financial contract failing to discharge its obligations.

Selection of a counterparty is made based on their respective credit rating. Investment decisions are based on the credit rating of the particular issuer, country limits and counterparty limits in place to control exposure risks.

The Bank uses Standard and Poor's, Moody's and Fitch credit ratings for assessing the credit risk of foreign counterparties. The credit ratings of counterparties are closely monitored and are updated as new market information is available. Foreign exchange limits per bank are imposed for all currency dealings.

Concentration of credit exposure

The Bank's significant end-of-year concentrations of credit exposure by portfolio type were as follows:

	2017	2016
B. •	\$000	\$000
Foreign currency assets		
Cash at bank	777,368	1,048,532
Held to maturity investment	3,457,690	2,859,056
International Monetary Fund	240,203	263,467
Gold investment	245,034	225,460
	4,720,295	4,396,515
Local currency assets		
Loans and advances	12,931	12,261
	4,733,226	4,408,776

The Bank monitors credit risk by currency and sector. An analysis of concentrations of credit risk is shown below:

	2017		2016	
Concentration by currency	\$'000	%	\$'000	%
USD	2,690,277	57	2,436,841	56

Total financial assets	4,733,226	_	4,408,776	

(d) Market risk

Market risk is the risk that changes in market prices, such as interest rates and foreign exchange rates will affect the Bank's income or the value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimising the return on risk.

Interest rate risk management

The principal risk to which trading portfolios are exposed is the risk of loss from fluctuations in future cash flows or fair value of financial instruments because of a change in market interest rates. The Bank limits interest rate risk by modified duration targets. The duration of the portfolio is re-balanced regularly to maintain the targeted duration. Operations are largely money market focused.

At the reporting date the interest rate profile of the Bank's interest-bearing financial instruments was:

	Carrying amount		
	2017	2016	
	\$000	\$000	
Fixed rate instruments			
Cash at Bank (Financial assets)	66,148	575,273	
Held-to-maturity investments (Financial assets)	3,457,690	2,859,056	
Loans and advances (Financial assets)	12,931	12,261

International Monetary Fund (Financial liabilities)	(110,670)	(107,430)	
	608,429	198,410	

23. Financial risk and management policies (continued)

(d) Market risk (continued)

Interest rate risk management (continued)

Fair value sensitivity analysis for fixed instruments

The Bank does not account for any fixed rate financial assets and liabilities at fair value through profit and loss. Therefore a change in interest rates at the reporting date would not affect the profit or loss.

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points (bp) in interest rates at the reporting date would have increased (decreased) equity and the profit or loss by amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

Profit or loss		
100bp	100bp	
increase	decrease	
\$000's	\$000's	
6,084	(6,084)	
	··········	
1,984	(1,984)	
	100bp increase \$000's 6,084	

Foreign exchange risk management

Exchange rate risk relates to the risk of loss of foreign reserves arising from changes in the exchange rates against the Solomon Islands dollar. The Bank has adopted a currency risk management policy, which maintains the Solomon Islands dollar value of the foreign reserves and manages the fluctuations in the revaluation reserve account. While the effect of fluctuations in foreign exchange are recorded in profit or loss, foreign exchange fluctuations are not included as part of profit distribution but transferred to the revaluation reserve for monitoring purposes.

In accordance with the CBSI Act., 2012, the task of maintaining the safety and liquidity of foreign reserve assets, as well as the returns from reserves asset management, are achieved through diversification of investment by entering into transactions in international capital and money markets. Analysis of risks is the process of managing the currency reserves by comparing factual risk levels with set limits.

23. Financial risk and management policies (continued)

(d) Market risk (continued)

The Bank's exposure to foreign exchange risk, based on carrying amounts, was as follows: 2017 foreign currency risk

Change in profit/equity due to a 2 per cent depreciation in the reserves - weighted value of the Solomon Islands dollar	87	80

23. Financial risk and management policies (continued)

(e) Operational risk management

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Bank's processes, personnel, technology and infrastructure and from external factors other than liquidity, credit and market risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risk arises from all of the Bank's operations.

Managing operational risk in the Bank is an integral part of day-to-day operations and oversight. This includes adherence to Bank wide corporate policies. There is also an active internal audit function carried out on a quarterly basis.

Operating loss is the risk of loss from breakdown of internal controls. The Bank has established an internal audit function which will exercise monitoring and control over accounting policies and procedures, and the effective functioning of the system of internal controls at the Bank.

Operational risk relating to the activities of foreign currency reserves management is controlled by a number of internal instructions, and there is clear segregation of front office and back office activity. The latter is one of the mechanisms for managing operational risk.

24. Fair value of financial assets and liabilities

The fair value of an instrument is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arms length transaction. Quoted market values represent fair value when a financial instrument is traded in an organised and liquid market that is able to absorb a significant transaction without moving the price against the trader.

Valuation of financial instruments

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.
- Level 2: Valuation techniques based on observable inputs either directly (i.e. as prices) or indirectly
 (i.e. derived from prices). This category includes instruments valued using: quoted market prices in
 active market for similar instruments; quoted market prices for identical or similar instruments in
 markets that are considered less than active; or other valuation techniques where all significant inputs
 are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all
 instruments where the valuation techniques include inputs not based on observable data and the
 unobservable inputs have a significant impact on the instrument's valuation. This category includes
 instruments that are valued based on quoted prices for similar instruments where significant
 unobservable adjustments or assumptions are required to reflect differences between the instruments.

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

24. Fair value of financial assets and liabilities

The table below analyses financial instruments measured at fair value at the end of the reporting period.

31 December 2017	Note	Level 1 \$000	Level 2 \$000	Level 3 \$000	Total \$000
Investment securities					
Available for sale financial assets (Gold)	6	245,034			245,034
31 December 2016	Note	Level 1 \$000	Level 2 \$000	Level 3 \$000	Total \$000
Investment securities					
Available for sale financial assets (Gold)	6	225,460			225,460

Refer Refer to note 10 which shows a reconciliation from the opening balances to the closing balances for the Level 3 fair values above.

It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

25. Related parties

The Bank has related party relationships with the Board of Directors, the Executive Management and the Solomon Islands Government.

The Board of Directors during the year and up to the date of this report were as follows:

Denton Rarawa (Chairman and Governor)

Gane Simbe (Deputy Governor)

Harry Kuma

Thomas Ko Chan

John Usuramo

David Quan

Leslie Teama (Resigned on 21/08/2017)

Rodney Rutepitu (Appointed on 20/02/2018)

Christina Lasaqa (Appointed on 20/02/2018)

Dennis Meone (Appointed on 20/02/2018)

Directors' fees and emoluments

Amounts paid to directors during the year are disclosed in Note 4 (f). No other emoluments were paid or are due to the directors at year end.

Related party disclosures requires the disclosure of information relating to aggregate compensation of key management personnel. The key management personnel of the Bank are members of the Bank Board and senior staff who have responsibility for planning, directing and controlling the activities of the Bank. Fees of the non-executive members of the Board are determined by the Minister of Finance. The contracts of the Governor and Deputy Governor are subject to mid-term review by the Minister of Finance and annually in accordance with Bank policy. The Board of Directors determines the remuneration of the Chief Managers.

25. Related parties (continued)

During the year the following persons were the executives identified as key management personnel, with the greatest authority and responsibility for planning and controlling the activities of the Bank:

Denton Rarawa	Governor
Gane Simbe	Deputy Governor
Luke Forau	Advisor to Governors
Ali Homelo	Chief Manager International
Daniel Haridi	Chief Manager Currency and Banking Operations
Michael Kikiolo	Chief Manager Economics Research and Statistics
John Bosco	Chief Manager HR and Corporate Services
Emmanuel Gela	Chief Manager Finance and Accounts
Raynold Moveni	Chief Manager Financial Market Supervision
Edward Manedika	Chief Manager Information Technology

The remuneration of the Bank's key management personnel, included in 'personnel expenses' was as follows:

	2017	2016
	\$000	\$000
Short-term employee benefits	3,028	2,647
Long-term benefits	1,046	1,120
	4,074	3,767

Short-term benefits include salary, annual leave, motor vehicle benefits, health benefits and the fringe benefits tax paid or payable on these benefits.

Long-term benefits include gratuity, long service leave and early retirement benefits.

As at 31 December 2017 loans advanced by the Bank to key management personnel are as follows:

	2017	2016
	\$000	\$000
Housing loan	1,667	1,631
Personal loan	63	59
Management car Ioan	131_	180
	1,861	1,870

There were no other related party transactions with Board members; transactions with director-related entities which occurred in the normal course of the Bank's operations were conducted on the terms no more favorable than similar transactions with other employees or customers.

Transactions with the Solomon Islands Government

The transactions with the Solomon Islands Government include banking services, foreign exchange transactions, registry transactions and purchase of Government securities. During the year, the Bank also paid \$nil (2016: \$0.3m) to the Government in accordance with Section 34 of the CBSI Act., 2012. The balance of the Bank's investment in Government securities at year end amounted to \$4.98 million (2016: \$4.97m).

26. Commitments and contingent liabilities

The Bank has guaranteed staff housing loans with the commercial banks to the sum of \$0.79 million as at 31 December 2017 (2016: \$0.79m). The guarantee scheme was no longer available to staff since 2011 and is valid for eligible staff until the date of ceasation of employment with the Bank.

In 2007 the Solomon Islands Government introduced and provided \$10 million for the establishment of the Small Business Finance Guarantee Scheme to be administered by CBSI. As at 31 December 2016, a total of 3 (2016: 5) loans with a net guarantee of \$0.576m (2016: \$0.678m) million have been administered under the scheme.

27. Events subsequent to balance date

There has not been any matter or circumstance that has arisen since the end of the financial year that has significantly affected, or may significantly affect, the operations of the Bank, the results of those operations, or the state of affairs of the Bank in future financial years.
